ROULETTE

In addition to the usual machines online casino Volcano drew attention to the players several types of online roulette:

European roulette

Roulette 4 tables

The roulette without zero

VIP roulette

Casino Volcano allows you to try every game in demo mode, and to play slot machines for free and without registration. Choosing the slot, the player can immediately determine whether or not he will play slot machines for real money or use the trial mode. Demo game is no different from the standard version of the game machine. It has the same rules and factors, but the winnings, of course, do not bring a real profit. To go beyond the game for the money, you need to register on the site or enter a previously created Account. Authorized the player is free to do have very real stakes and get real winnings. Players can perform all the steps above in the casino application. It carries all the functionality of the site, and provides seamless access to slot machines and better protection of personal data and money.

JACKPOT

Slots Volcano participate in the drawing of several progressive jackpots. A set of slots that take part in the draw, as well as the accumulated sum of winnings can be monitored in a special section of the site. The main jackpot can be disrupted at any time, regardless of the amount bid.

LOTTERY VOLCANO

Casinos almost always holds various themed lottery. To take part in these events is simple - we need only to play slot machines for money at a specified time. When the sum of the rates will be as high as 500 rubles A player gets 1 lottery ticket. All terms and conditions of the lottery can be found in the relevant section.
